The ADVENTISTS Trilogy

Nampa, Idaho (November 13, 2014) — Has anyone done more in recent years to spotlight Adventism within the public arena than Martin Doblmeier?

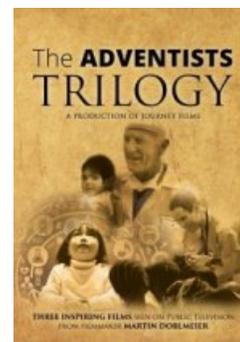

His powerful, award-winning documentaries are now available as a single, 3-DVD set, called The ADVENTISTS Trilogy.

The **ADVENTISTS Trilogy** contains all three DVDs in one boxed set.

The **ADVENTISTS** explores Seventh-day Adventism - an American-born religion whose members are some of the healthiest people on the planet.

The **ADVENTISTS 2** tells the story of how for more than a century Adventists have taken their healthcare message to the far reaches of the earth. Filmed on location in China, Malawi, Peru, and the Dominican Republic.

The **BLUEPRINT** recounts the story of Adventist education - one of the largest faith-based school systems in the United States - and shows a "whole child" approach to education: educating the body, mind, and spirit.

The 3-DVD set is [now available](#)
